It's My Party

As any good host knows, enjoying yourself at your own party can be a challenging task. Thanks to Jeanette Domeisen of *Favouritz*, you can capitalize on the developments of a professional party planner and her panel of twelve kids who know a good party when they see it. *Favouritz*' "Party in a Box" concept provides everything you need to throw a themed party for eight children. Outfits, decorations, games and a grocery list are included, and they even include photos for the imagination-impaired to guide you through the festivities. There are ten themes to choose from: Princess, Detective, Wild Animal, Asian, Hawaiian, Cowboy, Pirate, Upside Down, Indian and Astronaut.

As if that wasn't enough, Jeanette has offered her refined hosting skills and will provide a "Party With a Host", allowing you to sit back and snap photos of the little ones. I wouldn't mind one of these for my next cocktail party...
